SECOND READINGS

[2026-15](#)

**AN ORDINANCE AUTHORIZING THE MAYOR TO ENTER INTO A CONTRACT WITH THE REGIONAL INCOME TAX AGENCY (RITA), A REGIONAL COUNCIL OF GOVERNMENTS ORGANIZED PURSUANT TO CHAPTER 167 OF THE OHIO REVISED CODE FOR THE ADMINISTRATION, COLLECTION, AND ENFORCEMENT OF THE MUNICIPAL INCOME TAX OF THE CITY OF GREEN, OHIO; AND DECLARING AN EMERGENCY. -(Introduced 6/9/2026)**

**Attachments:** [2026-15 RITA Legislation](#)  
[2026-15 Attachment](#)  
[2026-15 Request for Legislation](#)

Councilman Humphrey read in the legislation and gave a brief summary.

Mayor Yeargin gave some brief background on how the city had arrived at this decision to move forward with RITA. In their research on this they reached out to other municipalities who had made the switch, including Barberton, Bedford, Canal Fulton, Cuyahoga Falls and numerous others. They asked them everything they could about their experience during the switch and what they heard was there's no going back. The quality, cost, efficiency they received by going to RITA far outpaced what they could do with their own income tax dept. Online payment services, federal income tax access were several benefits. He reported that the estimated annual savings would be \$300,000-350,000 a year. He reiterated that it is the city's responsibility to ensure city services are provided efficiently and effectively.

Finance Director Goodrich explained that she recommends that the City transition municipal income tax collection to RITA.

RITA offers stronger tools than the City can maintain independently, including federal tax data access, specialized software, legal expertise, and compliance resources. The financial case is significant: the City's 2025 collection cost is about 2.54%, compared with RITA's approximately 1.04%. The City could also reduce recurring collection and legal costs, including expenses currently paid to Keith Weiner & Associates. A transition would cause a one-time cash-flow timing issue in 2027, with about 11 months of collections recognized, but the revenue is delayed-not lost. RITA would improve taxpayer service through expanded support, online filing, payment options, and a streamlined process for businesses. Staffing challenges and the shrinking pool of qualified municipal tax administrators make continued in-house collection riskier and more expensive. Ultimately joining RITA would improve compliance, fairness, efficiency, and the City's long-term financial stability.

Matt Mau, Government Liaison and Amy Arrighi- Executive Director, RITA both spoken in detail about the benefits of RITA.

Mr. Mau went over their power point presentation regarding RITA and all things the things they provide. The RITA presentation is attached.

Councilman Humphrey thanked the Finance Director for wearing two hats

and asked a number of questions regarding data received on the federal side. He asked for clarification on the 3%.

Mr. Mau explained what they retain through the year, then at the end of year they divide that among all the member municipalities, and whatever that comes up to they refund back to the city after they reconcile. Mrs. Arrighi answered a number of questions.

Councilman Neugebauer commented on this being a great initiative and it making a lot of sense. He clarified a few points regarding the potential switchover. Agrees RITA will bring a real level of sophistication that the city currently lacks.

Councilman Meager & Brandenburg both asked a number of questions and additional discussion took place regarding RITA and the benefits and concerns.

Daniel Deckler, 4210 Cottage Grove, Rd. Green 44685-  
How are the savings going to be realized? What will be done with the savings?

Additional discussion took place regarding potential use of the savings and how they would come to decide that.

No further comments or questions. Time will be requested at the regular meeting.
