

## SAMER AWADALLAH, PE, PTOE Civil Engineer & Municipal Engineer

Samer is experienced in municipal infrastructure including zoning, planning, design, roadway, traffic signal, stormwater, sanitary, water system design, and construction administration. He has served as the Village Engineer for the City of Hartville for the past several years, providing them exceptional engineering support services. He also assists other Municipal Engineers, with in CT, with zoning reviews, plans, and other services, as needed.

Samer serves as CT's Lead Civil Design Engineer for project in the planning, design, construction, and various public improvement with a focus on roadway and street enhancement projects. The scope of work within these projects includes, but is not limited to, roadway reconstruction or rehabilitation, utility improvements including water main, sanitary sewer, and storm sewer, as well as traffic signals and signage. Samer is responsible for the preparation of construction plans and technical specifications, as well as coordination with subconsultants, private utilities, and grant administration.
