We just moved to Green from North Canton, thinking it was going to be a lovely place to live. My husband and 3 generations of his family have attended Green. My daughter will be a 4th generation. I am extremely disappointed about all of this! The schools are being outgrown. The traffic is INSANE!!!

Roundabouts do not solve issues. All this is doing is hurting our community. I regret buying here.

I thought the golf course was bought because the mayor wanted to keep more greenery in our community. Well this just completely contradicts that move. It makes me so sad to see how money hungry this city is.

Concerned Resident,
