What can we do for you?: Explain why our street is not cleared. I live on Cayugas Dr. From our home, we watch as 619 is plowed multiple times during each snow storm, yet our street is not plowed even once. We watched this evening as plows traveled up and down 619 multiple times, including the recent plowing at 9:45 pm as a 3 truck caravan. Yet our street has yet to see a plow even one time. This has been the normal activity seen for the season. Our driveway is very steep and yet we must keep it clear just to leave our home for work. Only to reach a street that has not been cleared at all. Very frustrating!
