RE: OUPS Response - 2424 LYNDON DR - OH2616604542

Attached you will find a schematic showing the approximate location of our facilities as requested. Please note that these are approximate locations and should not take the place of actual field-located facilities. Not all service lines and meters may be shown on the schematic at this time.

We appreciate you designing this project by working around our existing facilities if at all possible. Please call with any concerns you may have so that we can work together to resolve any potential issues.

If you wish to have our facilities field located, a new OUPS ticket must be called in for this request.

When you are ready to begin actual work, please call in an OUPS request. OUPS guidelines require a minimum of 48-hour notice so that we may mark our facilities before actual construction occurs.

If you have any further questions, please respond to this e-mail or call.

Best Regards,

Charles Davidson, PE | Engineer II
