Subject: 2018-R75

On behalf of the Rayl Family I am requesting second reading passage of the legislation to accept the donation of the 4.7 acre parcel of land from this family along with the funds to improve and /or maintain the land. This parcel is adjacent to 9.4 acres of open space currently owned by the City, as well as some additional lands that have been discussed for possible donation. Mr. Bert Rayl is the gentleman behind this donation, he has been wanting to place this land into the cities park system for a number of years, and it appears he has overcome all the family issues to do so, however Mr. Rayl has stage 4 lung cancer, and the family is hoping that he can be assured that the City will accept the donation. We understand that the Parks & recreation Board should also provide input, perhaps a motion can be made that City Council will approve the legislation contingent on the Parks & Rec Bd. Acceptance of same at their next meeting.

Wayne L. Wiethe, AICP
