

October 4, 2019

As you may recall, the Fire Division applied for three different AFG Grants at the end of 2018. We have recently learned that we were awarded a grant from that application period for a vehicle exhaust removal system upgrade at Station 2. The legislation attached to this email was developed by Lt. Brad Hemphill and Kris Ledford to authorize accepting this grant award. I thought that this was submitted to the Law Department by the deadline for legislation for the October 8th meeting, but it was not. To take advantage of this grant, we need to accept it with this or similar legislation before the October 11th deadline. As such, despite my error in getting it submitted by the deadline, I need to ask Council to consider it and consider first reading passage at the October 8th meeting.

Thank you,

Chief Funai
