Subject: Nexus

Dear City Council members -

I am unable to attend tonight's meeting but want you to know that I DO NOT support the pipeline project or the agreement.

We, as a community, determined several years ago that we didn't want a casino in Green even though we would have financially benefitted. We realized that the venture would change our community forever - in a negative way - irreversible, and said NO THANKS!

The NEXUS VENTURE is the most negative to come our way EVER! And THIS venture - as well as the terms of the agreement - offer NOTHING positive, and also irreversible.

We have said NO, residents have said NO, and CORN has also sent the same message - NO THANKS!

I believe administration is just tired of the continual fight and this is a way out. Please renew your efforts and continue to protect our community!

Please, please, continue to fight to keep this powerfully negative influence out of our community! No matter the cost!

Respectfully -

Barbara Holdren
