**Subject:** Driving METRO Forward - Spring Public Outreach

Good Afternoon,

METRO has been hard at work developing draft route proposals through our Driving METRO Forward process. The proposed changes are planned for implementation in 2019. To learn more about the project, please visit our website: <https://www.akronmetro.org/driving-forward.aspx>

We are holding a series of public outreach events this Spring to gather public and stakeholder feedback on our proposed changes. As an important stakeholder in the Summit County community, we hope that you'll be able to stop by one of our meetings and provide your feedback. Additionally, we would greatly appreciate any assistance in the distribution of this flyer to your networks (attached). We heard from over 450 people through our Fall outreach and we hope to beat that number this time around!

This is a key point in the process and every conversation is important. Please do not hesitate to reach out to me with any questions.

Best,  
Valerie
