Subject: ordinance for having chickens

I am writing to state that I do not think the City of Green should change anything on its rules for raising chickens. The 2 acres minimum should be required. I was just getting ready to reach out and make a complaint when I saw the article about the ordinance. I live in Tamarack estates and the people at 4736 Christman Road are raising chickens and they are roaming in the front yard. This is not acceptable. Being an older neighborhood in the City there is no active HOA that will protect this from happening so I am asking that the zoning requirements to raise chickens do not change. There is no way this can be monitored .

These people have some type of pipe running thru the front drainage ditch that also needs to be looked into.

Thank you

Patricia Smith
