Subject: FW: Proposed trail

Nichole,

I don't know if you got this too. If not, here it is for the next agenda.

Subject: Proposed trail

I am a resident on Thursby rd extension. I would like an update on the willadale trail. I previously read that funding was pulled from nexus fund and other funding will be needed. I am 100% against this trail as well as all my surrounding neighbors. I'm not exactly sure which council member is lying stating thursby rd residents are happy for the trail.

It was stated that the trail would be used as an escape route in the event of pipeline emergency/ explosion. Who in their right mind would drive ON TOP of a pipeline if it was faulty. This trail is overall a waste of money and has no practical use. The estimated cost is also a joke. The amount of clearing and grubbing required just to make access would be over the projected project value. Not including stabilization of ground or material.

An updated on the plausibility would be appreciated.
