To Whom It May Concern,

I am unable to make the meeting tonight at 7:05 pm. I'm am vehemently against the redevelopment for new housing. Mayor Neugenbauer states that no new developments would be put in, which is why Raintree was purchased by the city. He wanted to retain green space for the city. This proposal for rezoning completely contradicts this statement to his voters.

I firmly believe focus on green space, expanding schools, and maintaining/improving infrastructure needs to be more of a focus than selling off land to the highest bidding developer. I would hate to regret just buying a home in Green because such short sighted dealings like this are being done. My family moved here because it was supposed to be a better community, yet this will just cause more traffic issues (that aren't patrolled enough as it is), overcrowding, and unattractive concrete jungle expansion. I would have bought in Highland Square if I wanted tons of over development. I hope the council and zoning listen to the many people already expressing concerns since this meeting was, hastily, announced.

Regards,

Jessica Kaisk
