

August 17, 2021

I would like to request 2nd reading passage of Resolution 2021-R55, to approve the Final Plat and performance bond for New Seasons Planned Development phase 2 , this consists of an additional 12 lots within the planned development. The developer/ builder is requesting this so that they have time to get the utilities and roadway installed prior to the upcoming winter season, and to allow for the homes to get under construction again trying to beat the winter weather.
