To our Public Safety Partners:

Since 2002, Enbridge has helped make communities along our pipelines and near our facilities safer through a program known as Enbridge's Safe Community program.

This program awards grants of up to \$7,500 to local first-response emergency services, including fire fighters, emergency medical and rescue services, police and law enforcement agencies, emergency management, 911 operators and ambulance services in communities across North America. Program funding is available for equipment and training that enhances public safety.

Over the past 16 years Enbridge has provided more than \$13 million dollars across Canada and the U.S. through partnerships with hundreds of first response agencies and support of impactful public safety programs. In 2018 alone, we delivered nearly \$1 million in Safe Community grants.

Inviting your application for the 2020 Safe Community program

We are now accepting applications for our 2020 Safe Community program and we encourage you to take part. Please note, the funding requests can be significantly larger than what we've been able to fund in year's past, and your application should detail a specific request. More details can be found on our webpage noted below.

Applications for spring 2020 grants are due by March 31st. All applications will then be reviewed and awards decided by the Enbridge Community Investment committee in your area. Grants will be issued in the weeks following adjudication. Please note that while we work hard to support as many worthy, well-qualified organizations and initiatives as possible, we are unable to fund all applications.
