Subject: Approved Nexus Pipeline Haul Route Map

Please publish a map of the Approved Nexus Haul Routes through the City of Green.

The pipeline route map that is available on the city website does not adequately address those roads in the city that will be affected and are approved for use by the construction crews during the pipeline construction.

Providing such a map on the city website will enable the community to better detect and report any truck routing infractions that may occur while the pipeline is under construction.

Thank You,
Carl Mickelson
