Subject: Epcon Community in Green, Ohio

Hi Wayne,

my name is Justin Tizzano and I am currently a Green resident. I heard about a potential Epcon Community in the area and I fully support this idea. I've actually been able to see one of these communities in person in the Columbus area and there is nothing like it around here to my knowledge and believe it would be a great addition to our area. In addition to that I'm sure Green would see increased tax revenue as a result. So in short this resident fully supports the idea of this community in our city.

thanks
