Am I reading this post on Next Door, correctly?

Is the city considering a violation of the 4th Amendment and try to enter a dwelling without a warrant?

Now me as just a laymen knows that know city or Township can pass any legislation that goes against the Constitution!

And many of cases have been tossed just for that reason alone.

Now I'm NOT a lawyer or do I play one on T.V. understand the law, so please make us laypeople aware of any plans that might cost us tax dollars in litigation. Thankyou for your time.
