Hello. I am a new resident loving in forest lake. The new community. I have been living here for about a year already.

I do have to say. These roundabouts have become a bit ridiculous. I've never lived in a place that that this many roundabouts in quick succession.

I really does make it a comfortable driving experience and this many roundabouts in sequence is actually very disorienting as a driver. Especially when you have heavy trucks in the mix as well. It also makes it very difficult to get across the street because it forces you to drive up and down endlessly.

All these projects were started long before I moved here however I find them to be terribly intrusive to daily life.

All the funding that has been put this these projects surely could have been spent much more wisely and given back to the community in a way that makes more sense. Thanks

Mateen Haque.
