Mr. Gerard Neugebauer
Mayor, City of Green
1755 Town Park Boulevard
Uniontown, Ohio 44685

RE: Letter of Interest for Design Review Board

Mayor Gerard Neugebauer and City Council Members,

I am writing you in response to your Solicit for Applications for Boards and Commissions to express my interest in the open position on the Design Review Board. This position came to my attention through City's social media and web page.

My education and professional background is Architectural and Environmental Design. I have prior experience in a similar position on the City of Kent's Architectural Review Board from July 2013 through July 2015. During that time we reviewed major Downtown Kent and University of Kent developments. I also have had experience at the table for the projects this board would be reviewing; specifically Summa Heritage Crossings Emergency Department and Medical Office Building. My expertise in the field of Architecture would be of benefit to the community as well as my roots in the City of Green.

Having grown up in the City of Green and watching the city develop from a small township nestled between Akron and Canton to the sprawling City it is today. I wish to give back to the Community that helped me grow by seeing that it continues to develop by its standard of excellence. My family originally moved to the City in 1993 and I was a 2005 Graduate from Green High School. Now my wife, son and I are currently building a home in Green and are thrilled to back in the Community.

My Resume is enclosed contains additional information on my experience and skills.

Thank you for considering my interest in the Design Review Board and look forward to the opportunity to serve the Community.

Sincerely,

Matthew Glassner
3384 Kreighbaum Road
Uniontown, Oh 44685
