Subject: RE: Concussion grenade training at Sheriffs Training Facility

Molly,
I have not heard from any of the individuals you listed below. I realize this is not a high priority item for the City but I would appreciate a response from someone.

Thank you,
Terry

Mr. Miller,

I have forwarded your email to the Mayor, Council and Detective Brown with the Sheriff's office. You should be hearing from someone. If you don't by next week please let me know and I will follow up.

Have a great weekend.

Subject: Concussion grenade training at Sheriffs Training Facility

Molly,
My name is Terry Miller, I am a resident of Green on Byron Dr. Each month there is a training session at the Summit Co. Sheriffs Facility at which time they detonate concussion grenades', usually around 6 times. Some of these explosions shake our house a ½ mile away. I believe that law enforcement officers need training to do their job. But I don't understand why 6 explosions are needed to get the idea of how a concussion grenade works.
I went to the facility today to ask why there were 6 explosions. He said he was not sure and that I should contact my city officials to file a complaint. Could you direct me to the proper person to make this happen?

Thank You,
Terry Miller
