Subject: Safety Concerns in City of Green
Date: Wednesday, May 25, 2022 1:07:10 PM

Dear Council Members,

Thank you again for hearing my safety concerns about Arlington Rd. Do we have a city safety director? If so, who is it? Does this person have the appropriate current certifications and experience required for the position? Is the safety director able to act without influence or interference from the mayor or Council? Please consider establishing this position.

Several Council members were unaware of the delay in work on 619. With all the roundabout construction coming up, Council needs to be informed of progress of these projects. Please consider requiring a brief update on the status of these projects be provided to Council at every meeting. You need this information to be responsive to constituents' concerns and will be of value to make informed decisions on legislation.

I again invite anyone who is skeptical of the seriousness of the problem to come to our allotment at 4:30 and see the situation with your own eyes. It will only get worse when roundabout construction begins.

Thank you.
Pat Carleski
